Steel Air Bag Scissor Lift Table 43-3/4 In. x 35-1/50 In. 2,000 Lb. Capacity Orange

MODEL ABLT-H-2-32

Ergonomic Solutions / Air Bag Scissor Lift Tables

PRODUCT OVERVIEW

The air bag scissor lift table greatly improves ergonomics and productivity. The air bag technology helps raise pallets, bins, and other materials to your desired working height. The unit has a pressure relief valve to prevent over inflation of the air bag, as well as a captured scissor track to provide stability and safety while raising and lowering. There are various lift options available.

KEY FEATURES

- Air bag technology improves ergonomics and productivity
- Raise pallets, bins, and other to a desired working height
- Pressure relief valve prevents over-inflation of air bag
- Scissor track provides stability and safety while raising and lowering
