Polyurethane Floating Dock System Hole Block 24-3/8 In. x 24-3/8 In. x 15-1/2 In. Tan

MODEL FDS-HB-TAN

Industrial Carts & Dollies / Floating Dock System

Product image unavailable

PRODUCT OVERVIEW

When a permanent dock is not accessible, a floating dock is the perfect substitute. With a simple bolt, the block can be filled with water for balance and steadiness when in the water. After use, the bolt can be taken out for simple draining of fluid and for cleaning before storage. Unfilled blocks are lightweight and are simple to maneuver in place. The uniqueness of the block design is that a variety of configurations can be created by adding or subtracting blocks to fit the situation at hand.

KEY FEATURES

- Built in anchoring hole
- Polyurethane construction
- Perfect as part of a dock system
- Quick interlocking connection
