Steel Hydraulic Box Dumper Gate 25-1/2 In Length x 92 In Height Yellow

MODEL HBD-GATE-36

Ergonomic Solutions / Electric/Hydraulic Box Dumpers

PRODUCT OVERVIEW

A great addition to the hydraulic box dumper, this gate promotes safety while maneuvering heavy objects. With a tall structure and a strong construction the gate must be closed to allow functionality of the box dumper. Once the gate is latched the unit will function normally. The mesh design lets the user be shielded from possible falling objects, while still maintaining visibility on all on board items.

KEY FEATURES

- Mesh design for clear visibility
- Diminish the chances of unwanted use
- Simple magnetic interlock switch
- Open gate makes the unit inoperable
