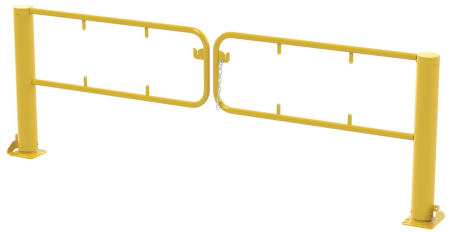
Steel Swivel Dock Gate Pair for 9 Ft. Door Yellow

MODEL SDG-9

Loading Dock Equipment / Swivel Dock Gates



PRODUCT OVERVIEW

Swivel dock gates are ideal for securing loading docks, parking lots, or other pathways. The gate features a steel construction for durability and a yellow powder coat finish for clear visibility. A chain and chain slots are provided on the ends of the gate arms for securing the gate in the close position, for added safety. Four built-in tabs are included on each gate (eight tabs per pair). These tabs allow a sign to be attached and secured in place between the upper and lower bars of the gate. The open design makes it easy for single or double sided signs to be utilized. Standard and custom sign designs are available separately.

KEY FEATURES

- May be positioned to swing in either direction
- Includes pre-drilled mounting holes for easy attachment to designated surface
- Features durable construction for added strength and long life
- All models come in pairs.
