2 Tier Multifunction Scaffold With Handrail 74 In. x 65 In. x 179 In. 1,000 Lb. Capacity Yellow

MODEL SCAF-MF-2-HR

Industrial Ladders / Multifunction Scaffolding

PRODUCT OVERVIEW

Working at elevated heights can be a dangerous job. That's why safety needs to always be a priority! With a multi-function scaffolding that safety and security is all around! A durable steel handrail surrounds the platform for complete protection in each direction. For those projects remaining in the same location for an extended period of time, a set of eight (8) base plates is included to keep the scaffolding grounded and secured. And for those days when you are on the move, casters are included to make the scaffolding a portable rolling unit! Anytime scaffolding is stacked, the use of an outrigger is required.

KEY FEATURES

- Includes two multi-function scaffolds
- Scaffold end ladder frames allow simple entry and exit
- High strength steel frame
- Narrow outriggers included for added stability
